# THEMENBEREICHE

## process transformation

Digitalisation can make processes more sustainable, safer and simpler; turn your work processes into a project.

## hard- und software development

Innovative developments can solve problems and improve adaptation to existing systems.

## digital learning

Digital learning materials can provide completely new learning experiences; create new tools and learning ideas.

# Du suchst weitere Informationen?
## Melde Dich bei uns

Our team will support you with all questions regarding submission, idea development and the presentation of the project.

You also have the opportunity to improve your skills and compare them with others in regular workshops and hackathons.

Would you like to improve your skills to better realise your project?
We can support you with workshops and personal advice. Current dates can be found on our website.

# INTERNATIONAL

## town twinning

## encouraging exchange

## learning from each other

Our competition gives you the opportunity to exchange ideas with teams from the partner cities and familiarise yourself with other projects.

## INTERNATIONAL COMPETITION 2024

### concept

If you are working on a project of your own choice that deals with the topic of digitalisation or the use of artificial intelligence, then you have come to the right place. The international competition gives you the opportunity to present your project and win prize money up to 1,000 euros. You will find more information on our website.

**DATES**

**30.09.2024**
Submission of project documentation

17.11.2023
Start competition period

**22.11.2024**
international award ceremony

## PARTICIPATION REQUIREMENTS

**1** Are you doing vocational training, working on an interesting school project or studying and are no older than 29? Then you've landed in the right place.

**2** Are you working on your project alone or in a team? Whether interdisciplinary, intercultural or as a lone fighter, everybody is welcome.

**3** What documents must be submitted? Present the project in the form of a digital presentation; for more information, please visit our website.

**4** Will I be supported with the submission? Of course, trainers and teachers can support you during the preparation process. Additionally, we regularly organise workshops and are happy to answer any questions you may have.

# The right step into your future

### Developing innovative ideas

Develop an innovative and sustainable idea that deals with the digitalisation of learning or work processes.

### Realising digital solutions

Just do it, realise your idea, this can be either a technical solution or the development of software.

### Presenting results

How did you come up with the idea and how was it realised? Describe the project and submit the description to us.
